

Auspit CATERING

Auspit is a new way of catering outdoors, ideally suited for 50 people upwards; it involves the delicate infusion of roast smoking all selections of meats over our wood fireashes and combines the ability to create the same flavours in your selection of vegetables. Add to this the ability for entrees like roast smoked garlic prawn and deserts including cinnamon apple; hot toffee orange or honey peach or pear it will ensure your function to be a complete success. It's all about the food.

The Auspit style of cooking can be tailored to suit differing ways of eating from complete meals, to eating cooked fresh as you wish when you want over many hours.

Please see our website www.auspit.com for further details.

Simply so good

Auspit
